

List of Bulletins for LOM in-line piston engines - from 2009-01-01					1
No of Bulletin.	Valid for engines:	Valid from:	Concerns to:	Service	Information
LOM-MB-01a/2009	For M332, M337, M132, M137 all series engines.	Date of issue	The marking and use of the cut-down cylinder heads for M132, M332, M137, M337 engines of all models and versions. The heads are marked S1 or S2.	M	-
LOM-MB-02a/2009	For M332, M337, M132, M137 all series engines.	July 1, 2009	Possibilities of extending the calendar operating periods for the piston engines of model lines M332, M337, M137, M132 of all versions. The first revision of the original bulletin issued on 1st September, 1994.	M	-
LOM-MB-03a/2009	M332, M337, M337A, M337AK, M137A.	August 14, 2009	Additional check of airworthiness of the following engines M332, M337, M337A, M337AK, M137A. The operating period was extended for the following engines after February 2006 by the organisation W-MOTOR SERVICE, s.r.o. beyond their valid authorizations for this activity (after the cooperation agreement with LOM PRAHA s.p. was terminated in the system LOM ASSISTANCE).	M	-
LOM-IB-04b/2009	For M332, M337, M132, M137 all series engines.	December 12, 2009	Information for engine operation, and operation shortly after installation into the aircraft airframe.	-	M
LOM-MB-05a/2010	For M332, M337, M132, M137 all series engines.	August 26, 2010	Usage of engine oils with higher kinematic viscosity for summer operation of the M337, M332, M137, M132 engines of all versions, at which a drop in oil pressure occurs at idle running to the value of 100 kPa at oil temperature on engine oil inlet higher than 65°C and air temperature higher than 20°C. Application of experience from operation of the Z-142 CAF aircraft with the M337AK.1 engines for other engines.	M	-
LOM-IB-06b/2012			<i>It hasn't been issued till now</i>		

LOM-MB-07a/2014	For M332, M337, M132, M137 all series engines.	October, 08 th , 2014	Effectivity acceleration of the occurrence reports from air service collection system.	M	-
LOM-IB-08b/2015	For M332, M337, M132, M137 all series engines.	March, 05 th , 2015	Spark plugs L22.62A2.	-	M
LOM-MB-09a/2019	Listed engines, identified by serial number	April, 17 th , 2019	Calendar engine operating period of engines, which have already had their hour operating period extended once or more times by 200 hours beyond the calendar deadlines (limits), due to unclear interpretation of bulletins below.	M	-
LOM-MB-10a-2023	For M332, M337, M132, M137 all series engines.	December, 20 th , 2023	Approval of aviation gasoline Avgas UL91 and UL94 according to the standard ASTM D7547 for operation of all types, versions and modifications of engines M132, M332, M137 and M337 series.	M	-

New numbering of bulletins; introduced on 01st January 2009; valid for in-line engines M337, M332, M137, M132 of all series.

Last list revision date: 20th December 2023.
